The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following ports, viz:

	Population.
Canton	1,000,000
Macoa	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Chean	1,200,000
Shanghai	1,000,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life especially in China. She has no postal system, and her only means now of communicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree renumerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞ The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald, Tribune, World, Times, Post, Express, Independent*, and in the Philadelphia *North American, Press, Ledger, Inquirer, Age, Bulletin* and *Telegraph*.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia.

Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtueus are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best

Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD.

FROM HON. JAMES TAOMPSON,

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; bnt usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,
J. H. KENNARD,
Eigth, below Coates Street.

CAUTION.

Hoofland's German Remedies are counterfeited. The Genuine have the signature of C. M. JACKSON on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

SPEECH

OF

HON. WM. A. WALLACE,

OF CLEARFIELD,

Delivered in the Senate of Pennsylvania on the Negro Suffrage Amendment.

Mr. Speaker, I feel, sir, that I do not possess the power that I should have to do justice to so grave a subject. I feel, sir, my inability to portray as I should the results of a policy so momentous in its bearings, so important in its results, and so destructive to the very essence of our institutions. I approach it with no partisan feeling, in no demagogueical spirit, but with the feelings of one who, laying his hand upon his heart, would do his utmost to serve his constituents, to aid in the elevation of his fellow man and to preserve and perpetuate the Commonwealth he loves, in which he was born and on whose loved soil he hopes to die. The consequences of this amendment are far reaching. It concerns the tiny infant, the gray-headed father, the wife and mother, the young and the old. Unborn generations are to feel its effects, and the destinies of the State are in its keeping; in its adoption the well known and recognized landmarks of our system and the established policy of the fathers of the government are to be reversed. We should approach its consideration, sir, with the consciousness that this is the forum of the people; that around us now and within the sound of our voices are gathered the living millions of the Commonwealth, and that from this elevation the echo of our voices, the solemn record of our votes are to penetrate the unknown years of futurity. Feelings of awe at the magnitude of the issue should prompt us to announce here the grave reasons that impel us to adopt or to reject it, and I can but express my regret that the republican party upon this floor, gentlemen of education, of talent and of eloquence, representing a majority of the people of the State, have in obedience to a prearranged order, seen fit in silence to register the will of caucus. I regret, and I believe that I represent five-sixths of the people of the State when I say it, that they have refused to render here the reasons that impel them to the votes they are about to give. In a back room of the capitol, during the past night, the Senators representing 340,000 of the electors and two millions of the people of Pennsylvania, have choked the arguments that should find utterance here, and in grim and moody silence, before the assembled majesty of the people, and in the presence of their constituents, await the hour for casting the votes that are to adopt a policy that affects the very life of our institutions within this Commonwealth. For this refusal, Senators, you must answer to your constituents, and I arraign you before them with the proud consciousness that upon this issue I represent not the minority but the vast majority of the people.

Sirs, the party to which you belong is an aggressive one; inexorable party necessity presses you onward; you must advance; right or wrong you must go on; if you stop to concert measures to bring good government, peace and rest to an exhausted people, if you do but turn aside to cause truth and justice and equity to reign in all the land, your inability to govern is demonstrated, and the party you boast as your pride is proved to be as "baseless as the fabric of a vision." It is this inexorable necessity that is now pressing you forward. It is this that compels you to-day to crush out with the will of an accidental majority the reference of this question to the people, and to deny to them their right to pass upon it, and it is this that impels you to place your hands upon your mouths and by silence to acknowledge the weakness of your cause and your inability to defend the measure you intend to vote for.

I now address myself to our power over this subject, and will briefly reproduce the arguments advanced in the minority report of this morning;

Sovereignty is in the people, not in the sense in which this assertion is often lightly made, but in that substantial and important sense which makes it the very basis of our system of government. Our own constitution explicitly provides in the second section of the declaration of rights, "that all power is inherent in the people."

This great power is not vested in the State, nor in the United States. Neither a legislature nor a convention can possess it.

Under our system the work of a convention specially delegated to form a constitution is inoperative until it is passed upon by the people, and receives from their hands its vitality. The Constitution of the United States and that of our own State both passed the ordeal of the people and became operative only under their approval. The tendency of public opinion is more and more in this direction, for of the constitutions adopted in the United States, upwards of eighty have thus been submitted and approved.

The proposition contained in the amendment is *a fundamental one*. By this we mean that it was one of those vital and important rights that entered deeply into the compromises of the Constitution and that *power over it was given neither to the Federal nor the state government*, but that the right to declare who should exercise the power of election in the State was reserved to the people and remains with them.

We have no power over this question. It belongs to the people, although a technical reading of the Federal Constitution on the subject of amendment seems to indicate that we have the power that really belongs to the people.

We are of opinion that the power of the legislature of this State to ratify of its own motion an amendment to the Federal Constitution is to be restrained and confined to those matters over which control has been vested by the people in the Federal and State governments.

Our power cannot go beyond this, for the stream cannot rise higher than its source.

Without the consent of the people of this State, a right that is not granted by them to either the Federal or the State government, cannot be taken from them, nor can the rights of a minority of the States be taken away by the majority, when the right invaded has never been within the control of the Federal Government. If this attribute of sovereignty can be taken from us by Congress and the Legislature then liberty of the press and trial by jury can in like manner be swept away, and it is within the power of amendment to create an established church and connect Church and State.

The exercise of this power by the Legislature, *without the consent of the people, is not amendment, it is revolution.*

A further consideration of the structure of our government and of the powers granted by the people lead us to the same conclusion.

The legislature of the State is limited and controlled by the provisions of the State constitution. Its acts in violation thereof are void. As an independent body, every attempt on its part to interfere with the right of suffrage, or to change the rule thereof, is of no effect. It may register the public will, but it can never act with power upon a subject beyond its control. The Constitution of the United States is a part of the constitution of Pennsylvania, and the constitution of Pennsylvania is a part of the Constitution of the United States. Each is supreme within its sphere. The government of the United States is one of enumerated powers; all powers not granted to it "are reserved to the States and the people." We may, for the purposes of this report, consider it to be supreme in its control of doubtful and concurrent powers, yet beyond these wide fields and outside of the range of its authority, is found the control of this important subject. It is reserved to the States, or the people. It is a part of the State constitution, *and in that respect* the provisions thereof are the supreme law. Being neither an enumerated, a concurrent, nor a doubtful power under the Federal Constitution, its control manifestly is in the State or the people. This amendment would be futile if the subject of it were not beyond the pale of Federal authority. No one will argue that its control is in the State legislature, if the provisions of the Federal Constitution on the subject of amendment are not to be considered, but we have already seen that it is in no manner controlled by Federal authority. If it is, then the State constitution, the supreme law upon this subject, is made inferior to the power of the State legislature, and they may by amendment override it. No such violation of the rights of the people was ever contemplated by the framers of our constitutions, but the plain and clear interpretation of the whole subject is, that this right is one that belongs to the people and can only be affected or controlled by them.

If by the vote of the legislatures of three-fourths of the States this amendment be ratified, and by the action of our State it is rejected, then our control of suffrage in Pennsylvania is taken from us by the votes of the legislatures of Florida and Oregon. Surely such a result as this was never contemplated by the framers of the government.

If it had ever been supposed to exist, the Federal Constitution would never have been ratified.

For these reasons I conclude that sovereignty upon this subject is reserved to the people, that the power of amendment in this form without their consent does not exist, but that it does exist as to all those matters in which powers and rights are vested by the State or Federal Constitution in the State or Federal Government.

The people of the State established this rule and it is their right to be consulted in its change. We cannot err in going to them for instructions.

To exercise this power without going to the people, as I have already said, is not amendment, IT IS REVOLUTION.

In accordance with these opinions I submitted to you this preamble and resolutions:

"WHEREAS, The Congress of the United States has proposed an amendment to the Constitution thereof, to be known as Article XV, which changes the rule of suffrage now existing in this Commonwealth, and substitutes therefor another and a different rule, which said amendment is now submitted to the legislatures of the different States for ratification; and

WHEREAS, "All power is inherent in the people," and it is right that they should have an opportunity to vote for or against the ratification of the said amendment and to determine whether they will or will not change the rule of suffrage now existing; therefore

Resolved, That the Judiciary Committee of the Senate be and they are hereby instructed to prepare and forthwith report to the Senate *a bill for the submission of the question of the ratification of the said amendment to the people at the election in October*, 1869.

Resolved, That the Senate will not act upon the question of the ratification of the said amendment to the Constitution of the United States at its present session, but will await the action of the people at the polls thereon.

By a strict party vote you have voted down this proposition and denied to the people the right to pass upon the question. That responsibility is now yours, and for it you must answer to them.

In the brief remainder of the thirty minutes you have allowed us to discuss this issue, I shall address myself to the subject in its practical bearings, and at the outset I disclaim for myself and those with whom I act all hostility to the negro, as such. The experience of the past has proved that their rights, as a race, are quite as safe with those who now seek to make of them a political power. It is for this purpose, and this alone, they are now sought to be vested with the right of suffrage.

In every right that belongs to the negro, *as man*, he is entitled to and has always found protection in this Commonwealth. The declaration of rights of the constitution is his ample shield and defence. Life, liberty and property, trial by jury, *habeas corpus*, education and all the other great privileges won by the Saxon and perpetuated in our institutions are freely accorded to the negro. Beyond this the people of this Commonwealth have never gone, and I believe, are unwilling now to go. The political power of the State has always vested in the white race, and it should remain there.

The Creator has distinctly marked the line of difference between the two races. The elevation of the one to the privileges and society of the other is the degradation of the superior. The attempt to alter the order of nature will bring upon the negro the resentment of the white. Prejudices founded upon nature are ineradicable in their character. The attempt of the negro to go to the polls with the white man will produce difficulties between them, and the law will be invoked to enable the negro to exercise the right you give him. This will but serve to increase the prejudice and arouse still more keenly the feelings of passion.

The interests and well being of the white man in this Commonwealth are more important than are those of the negro, for if suffrage be the great test of happiness and of progress, how much more important that four millions of whites shall be protected thereby than seventy-five thousand negroes.

In what respect do we benefit the white race by this amendment, and in what is the negro so largely benefited? Will the votes of the negroes add to our prosperity, our happiness, or our national progress? Can the admixture of the inferior add to the value of the superior, or will it deteriorate and reduce its quality? The benefit to be attained is purely partisan. The proposition is born of the necessities of the republican party. Nine thousand majority at the polls in October last, with all the prestige and popularity of a military chieftain to aid you, demonstrated the necessity for more votes, and in this you hope to obtain them. The right of voting and of being voted for have always gone together in Pennsylvania, but this proposition is a negation of that principle. It says to the negro, "help *us* to power and place, but you shall have none of it."

The practical working of this amendment will be prejudicial to the best interests of the State. Many of the best class of white citizens now refrain from voting because of the difficulty of access to the polls and the waste of time consequent thereon, and if the secret workings of the minds of many of these were discoverable, it would be found that contempt for the system and the character of the means used in political struggles largely enter into the motives of these citizens. Will this be improved or rendered worse by the further debasement of suffrage? I do not pretend to justify such sentiments, but we would be foolish to ignore their existence, especially in the large cities and more populous localities. There, too, often are found lines of voters a square in length, in which each must take his turn, and every artifice and trick is resorted to to embarrass the right and delay its exercise, and citizens must remain for hours in order to vote. These are some of the reasons why many of our best citizens refuse to vote. Will we increase the number of this class who visit the polls by sandwiching them on a warm October afternoon between two stalwart negroes?

It is our duty to protect the interests of the whole people and not sacrifice the settled policy of the State for the benefit of a few. Negroes never were electors in Pennsylvania, and I take distinct issue with the Senator from Erie (Mr. Lowry) upon that point.—Judge Agnew, of the Supreme Court, in the Pennsylvania convention of 1838 said: "The history of Pennsylvania proves that the African race never were considered a part of the sovereignty of Pennsylvania. They were not looked upon as being a part of the community at all, and consequently they could have no right to vote."

Mr. Fisher. Does the Senator deny that the Africans did vote in this State?

Mr. Wallace. I do not deny that in some counties of the State they were permitted occasionally to vote, but that they had a right to do so is expressly denied by Judge Agnew; and Chief Justice Gibson in Hobbs vs. Fogg, 6th Watts, expressly decided they had no such rights. The law of Penn'a and the policy of its people, have always created them as an inferior race, and as such they are recognized to this day. This position is fully re-asserted in the case of the West Chester and Philadelphia railroad company, vs. Miles in 5th P. F. Smith's reports, in which Judge Agnew declares: "The natural separation of the races is therefore an undeniable fact, and all social organizations which lead to their amalgamation are repugnent to the law of nature."

The law of 1780, which abolished slavery in Pennsylvania, conceded to the negro the protection of the laws, but it gave him in express terms but a part of that freedom which the white race enjoyed.

Under the rule of suffrage established by the *people* in this state, one man votes for six people. the rights of five are ignored, and but one is recognized as a polical power. Four millions of people reside within our limits, yet 650,000 men control the State, and less than 350,000 of those spoke the voice of our population in October last. Universal suffrage is a myth, and the sickly cant upon that subject, so common in these days, is arrant humbug. It never has existed and never can exist in practice, and this in itself demonstrates that suffrage is not a natural right. The rule of exclusion must be fixed some where and every State must draw that line for itself. The people of this State have said that this is a *political community of white men over the age of* 21 *years*, and have vested them with the power of the State.—Universal suffrage cannot exist for in practice it is invariable to exclude those not naturalized, those under a certain age and females. We have a million and a half of females, as deeply interested in the success of our institutions as you or I, vested by nature with all those qualities which would make them fitted for all the duties of the State, and infinitely superior to the negro. Yet they are excluded. There are more citizens under the age of 21 years than there are over that age.—They have more interest in this government, Senators, then we have, for they are to survive us and those who elected us; they are to defend the Commonwealth in the near future; they are to pay its taxes and administer its government. Yet all these are excluded and deprived of the right. But you affirm that the negro defended the republic in war, and therefore he should be given the right of suffrage. If this be sound, why will you not give it to the half million of men between the ages of 15 and 21, from whose ranks you filled the gaps in your regiments during all of the war. Were they not all as gallant, are they not as intelligent, have they not as much interest in our institutions as the negro? Yet depriving all of these classes of this right, you are about to throw open the polls to the negro. It is a privilege, nay a duty, and all cannot be vested with it. Why shall we admit the inferior and exclude the superior? Why include the few and exclude the many? Why enfranchise the less deserving and exclude the more meritorious?

"Suffrage is a political power vested by the sovereignty of the community in a chosen body of electors." It involves duties and responsibilities, and it is our duty as members of the state to place those responsibilities and devolve those duties upon those best fitted to perform them. It is the right of the mass of the people to be properly represented at the polls, and it is the right of the Commonwealth to be well served by the electors. Can these duties and responsibilities be best fitted by every member of the community, or shall it be by a selected body? Experience in every age has determined the latter. Whilst recognizing the beauty of the ideal right we must not fail to remember the practical. The right as it can be obtained by human agencies is only that which is practically within the reach of man, having regard to his surroundings and circumstances under which he exists, and no statesman can surrender *the attainable good* of the greatest number for the visionary and *unattainable standard* of perfect right. Hence, those who framed our governments wisely excluded the idea of unlimited suffrage and confined it to a chosen body of the white people. In this we see and recognize their wisdom and forethought, and from it we may fitly conclude that in the exclusion of five sixths of their own race they did not dream that those should be made subordinate to the control of an inferior race, then and for years previous a servile people.

The whole question for consideration is, who can best perform the duties required by the Commonwealth at the hands of her electors, and there are no interests of morality, no interests of religion, no interests of society that demand that we should mould the inferior with the mass of the superior, and thus debase the whole.

The interests of a vast political community are at stake, and it is wrong to incur any risk, remote though it may be, in giving them the controlling power of the government.

The influence of race upon the national destiny can scarcely be doubted. The inherent nature, the intellectnal, moral and animal qualities of families of men, largely aid in shaping the course and position of the nation they control or of which they from a part, and "all history in its ultimate analysis is a history not of kings and laws but of races." This is one of nature's hidden forces silently working out its own great problem. It is as true that man makes the institution of which he forms a part, and impresses with all of his mental and animal propensities, as it is that governments are made for men, not men for governments. Our progress is one of the best evidences of the truth of this proposition. Contrast the career of the Saxon for six hundred years with that of the African for four thousand years, and see in this the power of race. Compare the results of the energy of the Caucasian admixture as found within this Republic, with the evidences of the energy of the mixture of that race with the Indian and negro as found in the Republic of Mexico, and discover here, too, the influence of race upon national destiny.

We have proved our capacity; they have demonstrated their weakness. We have impressed upon every portion of the Republic the evidences of our intellect and energy. The busy marts of commerce, the thriving, restless and indomitable millions of our people, the schoolhouse upon every hill, the church spire wherever man is found, the shrieking engine tracking hill and dale and valley, and dragging riches from the earth, the college, the telegraph and the factory, the advanced acquirements in every branch of of literature, of science and of art, our wonderful increase in population, are the proofs of our capacity, the majestic results of a government of white men. They are the patents of our nobility, the insignia of our right to rule. These, all of these, prove to us the wisdom of the policy of the founders of our government and it should be our pride to continue in the career of progress so auspiciously begun. Shall we jeopardize our future, shall we initiate a new and dangerous policy, shall we yield to a mixed and mongrel race the place we have won the right to occupy?

Senators, I pray you to hesitate and think before you fasten upon an unwilling people this dangerous, and, I fear, disastrous policy.

THE BLACK DEED CONSUMMATED.

The Pennsylvaoia Legislature Sells the Birthright of the People!

On Thursday last the House of Representatives at Harrisburg, ratified the proposed XVth Amendment to the Constitution of the United States. The State Senate having previously ratified it, the consent of Pennsylvania is now given to the adoption of the Amendment. This consent, however, is not irrevocable, provided three fourths of all the States do not ratify before the meeting of another legislature adverse to the action of the present one. It is hardly probable that the requisite three fourths will ever ratify; at least it is impossible for them to do so before the assembling of our next legislature. Hence the people will have an opportunity at the polls to rebuke the representatives who have betrayed their trust, by electing others who will reverse the *snap judgment* obtained against the freemen of Pennsylvania by the treachery of the legislature.

And, now, we come to make our appeal direct to the masses of the Republican party. We do not come to ask you, fellow citizens, to do any wrong to the African, or the Chinaman, or the Indian, or any man of any race under heaven. We only ask that *the right of the people of the several States to control and regulate suffrage for themselves shall not be taken away from them.* This right was reserved by the people to themselves when they framed the government. It has never been yielded up. But now it is proposed, by this XVth Amendment, that *the people shall surrender that right and confer it upon the Federal Congress.* Nay, more. The Radical majority in our State legislature have assumed the authority to vote away this right without consulting the wishes of the people in regard to it. They have not only betrayed the trust committed to them by their constituents, but they have deceived their own party friends whom they assured that they would stand by the Chicago Platform of last year, which pledged the Republican party to the doctrine *that in all the loyal states, the suffrage question should be left to the control of the people thereof.* Hence the Radical majority in the legislature are guilty of a DOUBLE CRIME, of usurping a right that belongs to the people and of defrauding their own political supporters.

We are sorry that we are called upon to record the names of MESSRS. STUTZMAN, LONGENECKER and WELLER, the Senator and Representatives from this Senatorial and Representative district, among the Radical majority which thus attempts to sell the birthright of Pensylvania. Each and every one of them voted for the Amendment and against the proposition to submit the question to a vote of the people at the next general election. Thus are they upon the record. They despised and defied the popular will. Remonstrances against the adoption of the Amendment, signed by thousands of Republicans, many of them constituents of these men, were read in their hearing, but they laughed them to scorn. They knew, too, that they could never have been elected to the places they fill, if they had dared to avow, nay if they had not persistently and positively denied, that they were in favor of Negro Suffrage, but they cared not for their pledges to the people. The fiat of the Radical ring-leaders at Washington had gone forth, and these cringing, crawling, lick-spittle slaves dared not to assert their independence and speak out the voice of their own people. The leprosy of office-getting had unmanned them, and they were held in the Radical leash like so many whipped dogs.

Let not the reader think us severe. We have no terms of reprobation as strong and stinging as should be employed in denunciation of Representatives who sell their own constituents' birth-right, and who violate their solemn pledges to the people that chose them to office. Their blood be upon their own heads. They have dared the vengeance of an outraged people and they must not complain if they fall before it. Mr. Longenecker has been renominated. *He must and will be defeated.* And, now let the Radicals of the district re-nominate Stutzman and Weller, if they dare.

THE members of our State legislature who voted for the XVth Amendment, had better now pass bills appropriating to themselves the real estate and personal goods of their constituents. The one theft would not be greater than the other.

A special telegram to Forney's *Press* says:

President Grant, who has been suffering for a few days past from *a severe attack of headache*, has entirely recovered, and will be able to-morrow to resume the duties of his office as usual.

Severe attacks of headache are very apt to follow a liberal indulgence in *strong drink.*

REMEMBER that every Radical member of the legislature except one, voted for the XVth Amendment forcing Negro Suffrage upon the people of Pennsylvania without their consent. Every Democrat voted against it. Now the issue is made up. It can't be dodged any longer. It must be met. The Democratic party goes into the campaign advocating the election of a legislature which will repeal the action of the present one. The Radical party asks the people to elect a legislature which will sustain the treachery and foul-dealing of the body which now misrepresents the people of the State. Let every man, especially every Democrat, lay this plain issue before his neighbor and see that he joins the column of REPEAL!

The fact is plain, in nearly every one of the Southern States, that if the carpet baggers be allowed to run their machines without interference a little while longer, they will eventually destroy each other. They are already contending among themselves for the spoils, and the negroes are beginning to drop away from supporting them, their real character having become tolerably clear to Sambo's not over-vigorous perceptions. The carpet-baggers will undoubtedly come to the fate of the Killkenny cats. Time will vindicate the people upon whom they have so lavishly spit their venom.

THE appointment of Miss E. Ketchum, a Philadelphia negress, to a clerkship in the Treasury Department at Washington, has caused great excitement among the colored population of the District of Columbia. As soon as they heard the report they thronged the treasury building in great numbers and all shades and sizes, many with little picanninies in their arms, demanding offices and bureaus. It will never do for the radicals of Pennsylvania to give the negroes the right to hold office, or they will insist on more than their fair share of the spoils of victory. It is quite enough to let Sambo vote.

A Radical cotemporary, says: "Grant's election decided impartial suffrage." It ought to, certainly. For the convention that nominated him said in their resolutions: "The question of suffrage in all the loyal States properly belongs to the people of those States." When this was formally communicated to Grant, he said in reply, in his letter of acceptance, dated May 29, 1868: "The proceedings of the convention were marked with wisdom, moderation, and patriotism, and I believe express the feelings of the great mass of those who sustained the country through its recent trials. *I endorse their resolutions.*" * * * *

As an evidence of the spirit which pervades the Radicals at Washington, a recent telegram informs us that Secretary Boutwell has notified fifty of the white female clerks in his department that on the first of the month their services will be dispensed with. Cotemporaneous with this comes the announcement that a negress has just been appointed to a Treasury clerkship. This is one of the beauties of the proposed Fifteenth amendment—white women discharged and their places filled with negresses. *Vive la* Radicalism!

GOV. BAKER, of Indiana, on Monday, issued a proclamation convening the legislature of that State, in special session on the 8th of April. The election for members who resigned to prevent the perpetration of the negro suffrage fraud, took place on Tuesday of last week, and all those who resigned were re-elected by the people, as a token of approval of their course taken in the Legislature.

GEN. STONEMAN has just removed the Governor of Virginia, and assumed the duties of that office himself. Can such things be done under a Republican form of government? Are we not living under the rule of a despot, rather than under the government established by the fathers of the Republic?

"Let us have peace." The empire means peace.

THE promotion of brothers-in-law is by no means confined to General Grant. John Scott imitates his laudable example by recommending his brother-in-law, Eyster, of Chambersburg, for Director of the Mint. This is much better than drafting operations during the war, though these are said to have paid quite handsomely.

THERE is one shrewd member of the Grant family. It is the mother of Ulysses S. Grant. She steadily refuses to go near Washington. She has no idea of being violently shoved into a consulship or a collectorship or a postoffice.

THE administration of President Grant has been in operation for nearly a month, and as yet there is no indication of any business being transacted save that which belongs to the distribution of official patronage.

THE President has ordered the discharge of 750 soldiers employed at the arsenals in various parts of the country.

PHILADELPHIA.

[Correspondence of the Bedford Gazette.]

THE M. E. CONFERENCE

is now in session in this city. A great interest is manifest, and much business has been transacted. Bishop Simpson presides. We understand that a division of the conference is proposed, as the body has become unwieldy, and large bodies move too slow these progressive days. It is announced that the question of Lay Representation is to be submitted to the church, and that male and female members are permitted to vote on it. If it is not carried by an overwhelming majority, your correspondent is no prophet. Ministerial parity and lay representation are the only grounds of permanent evangelic prosperity in this democratic country, and we are glad to see our Methodist friends taking this high ground.

JOHN B. GOUGH.

We heard Gough on Monday night on "Circumstances." The Academy of Music was packed, and as hundreds could not gain admittance, he is announced again for May. We will not venture a critique on a man who can pack the Academy with five thousand people and hold them two full hours. He has vast elocutionary powers, as also of description. As an actor in comedy or pantomime he could not be excelled. The subject matter of his lecture was very light and common place: and if you would take out about eighty anecdotes and as many funny things he saw and heard, and the awfullest gyrations, genuflections and lofty tumbling you ever saw on earth, there would be the little end of nothing left. But we must confess that who or whatever can crowd that immense place, whether man or monkey, must be decidedly great somewhere. We hope our shadow has increased about a pound from the good roaring laughs we had anyhow. *Vive le* Gough!

ENGLISH SPARROWS.

The city has imported a thousand of these little birds, and the carpenters are busy getting houses in order for them. They are a necessity to keep down worms, bugs, &c., and it is to be hoped that they can be successfully cultivated. When will we learn to prize birds? They are a public blessing, and that man who shoots a blackbird because it takes a dozen grains of corn, saves about two thousand worms to eat his crops and a bagful of bugs to prey on his garden. Killing birds to save grain is only another way of putting the old adage: Save at the spicket and let it run at the bung hole. A special legislative enactment against this folly—we almost said barbarism—of shooting any kind of birds, would be not only humane but economical.

EXACTLY

as I told you about Velocipedes—that they would become a nuisance and get a force after them. They are venturing out, and on Broad you can see all kinds of grotesque shines. At the Rinks, for a quarter, you can have your *satis jam* of that kind of thing. But my breakfast paper says that the Chief of Police is out after velocipedists and tells his force to keep a particular eye on them and wheelbarrows. Now, as these bycycle propellers are not going to bump over cobble stones and get jammed in among drays and mule wagons, we shall see some rare scenes between them and the police. Before you get them in Bedford it would be well to have the experience of *John X. Schmidt* as given in the *Sunday Dispatch*. He went to the Rink to practice, was thrown off, run over generally and and gives us the result:

THE NATIONAL LIFE INSURANCE COMPANY, whose prospectus is elsewhere published, presents, in addition to the ordinary features of Life Insurance, a plan called "the income-producing plan," which unites the security of Life Insurance to the present value of an annuity. This plan is entirely new, and originates with this Company. It embraces two ideas; An ordinary Life Insurance, with limited premiums and a life annuity commencing at the end of ten or twenty years, and paying to the person insured one-tenth of the amount of the policy yearly till the end of his life. Thus, a man having a policy of a thousand dollars for ten years, and paying $125 a year, will receive $100 income as long as he lives; and so, at this rate, with any amount he may choose to invest. Thus, by a little economy in the early years of life, the merchant, the mechanic, or the business man can secure for himself in his later years, when the time comes for rest, peace and quiet, an income that no business disturbance can destroy, and that will last as long as he lives.

PACKARD'S MONTHLY, for April, is before us. This number is replete with good things. In fact, each succeeding number seems to be the best. It is astonishing that a periodical of so much merit can be procured for so little money. $1 a year. S. S. Packard, publisher, Broadway, New York.

BRAINARD'S MUSICAL WORLD for April is on our table, and is a brilliant and attractive number. The April number appears in an entire new dress. The Musical World is furnished at the very low price of one dollar per annum, by S. Brainard & Sons, Cleveland, O.

THE extra pasters and folders have sold out to the bummers around the Legislature who are still struggling for a slice of the spoils.

BRIEF NEWS ITEMS.

Notwithstanding civil law has been restored in Crittenden county, Arkansas, the militia are yet committing many outrages, robbing and plundering indiscriminately. A Little Rock dispatch says the negro Major Tatum was hanged on Thursday last for the murder of Rev. Mr. Morrell a few days since.

A recent dispatch from St. George, Southern Utah, says there is no doubt Navajoes have taken possession of the country south between there and the Colorado river. It is also reported that that they are trying to form an alliance with other Indians to make a general raid on the stock of settlers. An Omaha dispatch, from the Upper Missouri Reservation, reports that great dissatisfaction exists among the Indians. It is said that even Spotted Tail is complaining, and an early attack is feared.

The Chambersburg Valley Spirit gives full details of the late fiendish outrage perpetrated upon three white ladies, near that place—one of whom was but 13 years of age—by a negro. His first victim he found alone in the house of her father; the second he met in a by-road a few minutes afterwards, first knocking her insensible with a hammer, and the third one he met coming through a field—and all between half past 11 a. m. and half past 4 p. m.

A mysterious murder has taken place in Philadelphia. Wednesday evening of last week the body of Joseph W. Smith, janitor of Girard Hall, was found in the building, tied hands and feet and a pistol bullet in the head. So far there is no clue to the murderer, and the more the investigation is pursued the deeper the mystery becomes.

Letters from merchants of Matanzas, Cuba, state that the Spanish General Lesca was defeated by Quesada and driven back to Quanaja; that he then made a detour and attacked a small body of insurgents under General Lucia, and after losing thirty-seven officers and eight hundred men, he forced his way through the defile and reached Puerto Principe. He is now in the very heart of the region devoted to the Cuban cause but it is said he cannot remain there and live, and his retreat will be as disastrous as the advance.

A commission has arrived at Havana to prefer complaints against the Governor of Trinidad. It is charged that he has sold himself to the insurgents. Similar complaints are preferred against the Governor of Villa Clara. the advance guard of General Ledona was defeated recently near Cienenfuegos. Several expeditions from the United States well suplied with arms have landed on the Cuban coast recently.

Cuban advices say that steamers are fitting out on the Florida coast to run the blockade with arms and suplies for the insurgents.

The Cuban government is urged to arm the blacks. It is still thought that Santiago de Cuba has been captured by the insurgents.

It is rumored, say Buenos Ayres papers, that Lopez desires to cede Paraguay to the United States.

In Boston, on Thursday night of last week, a young man named Pine shot Miss Howard, inflicting what is feared to be a fatal wound. He then shot himself dead. Rejected love is supposed to have caused the tragedy.

The State Auditor of Louisiana and his chief clerk have been indicted for fraud. The Auditor vacated his office, and the Governor appointed a colored man as acting Auditor.

Hon. Edward Bates, United States Attorney General under President Lincoln, died in St. Louis, Mo., on last Thursday afternoon.

Only 30 miles of the Chicago, Rock Island and Pacific railroad remain to be built to complete the road to the Missouri river, connecting with the Union Pacific railroad.

A dispatch from Atlanta, Ga., says that the negro charged with murder and rape, was taken from the jail, in Dooley county, last Thursday night, by a disguised mob, and was burned to death.

Senor Lemus, the envoy for Cuban provisional government, says that the revolutionists have twenty-five thousand men under arms, and would have many more if able to provide arms for them.

Sugar planting has been very successin Louisana this season, and the crop estimated at from two hundred and fifty to three hundred thousand hogsheads.

Governor Geary of this State, has issued a warrant for the execution of Lewis Lane, who murdered his wife last April.

Ex-President Johnson is ill at his home in Greenville, Tennessee. A recent despatch reports him to be improving.

Immense gold discoveries are reported on the mainland of Alaska. The mines can only be worked five months in the year.

The rapidity with which Plantation Bitters have become a household necessity throughout the civilized nations, is without a parellel in the history of the world. Over five million bottles were sold in Twelve months, and the demand is daily increasing. Rich and poor, young and old, ladies, physicians and clergymen, find that it revives drooping spirits, lends strength to the system, vigor to the mind, and is exhausted nature's great restorer. It is compounded of the choicest roots and herbs, the celebrated Calisaya or Peruvian Bark, etc., all preserved in pure St. Croix Rum. It is sold by all respectable dealers in every town, parish, village and hamlet through North and South America, Europe, and all the Islands of the Ocean.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

THE office-seekers have given President Grant a severe headache, and he declines all interviews in consequence.

Look out for "April fools!"

A. J. Colborn, Esq., Democrat, was elected Chief Burgess of Somerset.

Dr. Mudd having been released from the Dry Tortugas can now be seen every day on Juliana street.

J. B. Cessna, Esq., was elected to the office of Auditor in McConnellsburg. Brother Jonathan, we congratulate you. Now for the Senate.

A good many folks are on the "move" this week. Things go "flitting" by as the first of April approaches. May happiness attend them in their new homes!

A palpable hit—"How do I look, doctor?" asked a painted belle of the family physician. "I can't tell, madam, till you uncover your face," was the crushing reply.

The Radicals at Harrisburg ratified the Fifteenth Amendment, or, the Fifteenth Radical Commandment, as some term it. The people will now have an opportunity to ratify these ratifiers, at the polls, next October.

Dull and prosy—the attempted wit of the Bedford Gazette.—*Bedford Co. Press.*

That is decidedly the smartest thing the *Press* has said since its existence. Do it some more so, boys. You are improving fast. You'll learn to be witty, too, by and by.

Our neighbors of the quill, in this county, are whistling "Old Hundred" with elongated countenances, since the disastrous defeat of their party at the spring elections. They had flattered themselves with the hope that the result would be quite different. No use talking, gentlemen. The dog's dead. Article XV is killed.

Juliana street was open to navigation last Friday. The letting on of the water was clumsily managed, and, consequently, the foot bridges and crossings were nearly swept away. Pedestrianism was dangerous save to those who could swim, or whose "pins" were of sufficient length to risk a wade. Juliana promises soon to improve her condition. Hope so.

Mr. Jacob Scheetz—Sir: I suffered for over two years from Dyspepsia, with a sense of suffocation and severe pain after eating, and although I tried various remedies, and took medical advice, yet I found no releif until I tried your "Celebrated Bitter Cordial," which acted like magic upon my system and before I had used one bottle, I found myself entirely cured, and have not had any return of the complaint since. I can therefore reccommend it as an invaluable remedy to those afflcted in the same way.

Mynheer Paul Dietrich, of Milwaukee, feeling his earthly tabernacle, stored with troubles, to be expelled, decided, after full enquiry and investigation, to employ Ayer's Pills. In his haste to purify his dutch stomach he mistook the directions. 2 to 7, and swallowed 27 for his dose. This created of course, an ap-paul-ing internal rebellion. But Paul went through the fight like a hero, and came off victor at last, with a renovated system which he proudly exhibits as proof of the wisdom of his choice. He advises every body to take Doct. Ayer's Pills, but kindly advises his friends who are ambitious of following his example, to "prepare and take der right botion."—*Minnesota Telegraph.*

WEAR your learning, like your watch, in a private pocket, and don't pull it out to show that you have one; but if you are asked what o'clock it is, tell it. So if you are asked what the greatest tonic in the world is, you can with confidence say, the Zingari Bitters. It is recommended by some of the most eminent men in this country, as well as in Europe.

Sewing Machines.

$25! $25!

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

AGENTS.

We wish to arrange with Agents, male or female, to represent the American Shuttle Sewing Machine, in each State, County, and Town in the United States and Ontario. Extra inducements to Experienced Agents. For full particulars, as to Salary or Commission, address

OUR NEW FAMILY SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. NATURE'S GREAT RESTORER.

SCHEETZ'S

CELEBRATED

BITTER CORDIAL.

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

THE GREAT

ZINGARI BITTERS.

A Safe Blood Purifier,

A Splendid Tonic,

A Pleasant Beverage,

A CERTAIN CURE

AND

PREVENTIVE OF DISEASES.

The ZINGARI BITTERS are compounded from a prescription of the celebrated Egyptian physician DR. CHEOPSUS, who, after years of trial and experiment, discovered the Zingari Herb—the most remarkable vegetable production, the earth, perhaps, has ever yielded—certainly the most effective in the cure of disease. It, in combination with the other valuable properties of which the Zingari Bitters is composed, will cure

Dyspepsia, Fever and Ague, Bilious Fever, Cholrc, Colds, Bronchitis, Consumption in its first stage, Flatulency, Nervous Debility, Female Complaints, Rheumatism, Dysentery, Acute and Chronic Diarrhœa, Cholera Morbus, Cholera, Typhoid and Typhus Fever, Yellow Fever, Scrofula, Diseases of the Kidneys, Habitual Costiveness &c., &c.

In the PREVENTION and CURE of the above diseases, it has never been known to fail, as thousands of our most prominent citizens throughout all parts of the country will testify. Let the afflicted send for circular containing testimonials and certificates of those who have been cured after their cases have been pronounced hopeless by our best physicians.

AYER'S

HAIR VIGOR,

FOR THE RENOVATION OF THE HAIR.

THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,

For all the purposes of a LAXATIVE Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or Green SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adcertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

AYER'S SARSAPARILLA,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations, and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

Miscellaneous.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or traveling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
